

## WILLIAMSON COUNTY GOVERNMENT

### **2017 Harpeth River Stream Clean Up Itinerary Del Rio Pike to Old Natchez Trace May 26, 2017 at 8:30 A.M.**

Williamson County will be hosting a stream clean up on a section of the Harpeth River on May 26, 2017. Volunteers will meet at 8:30 at the put in location, and a shuttle will be provided at the take out location. The area of focus will be from Del Rio Pike to Old Natchez Trace. The goals for the stream clean up will be to:

1. Visually assess bank stabilization and possible failures,
2. Record the location of specific areas that need additional attention, such as heavy debris, log jams, etc.,
3. Identify possible solutions for the safe extraction of objects within the channel,
4. Detection of possible illicit discharges, and
5. Remove trash that has been deposited in river/banks.

We will be covering approximately 7 river miles.

Trash bags, gloves, and refreshments will be provided.

**Volunteers must provide their own canoes.**

**If you are interested in attending, please contact Michael Scott by May 23, 2017 for more information.**
