

03/15/11 Public Involvement Meeting

On March 15, 2011, citizens of Leiper's Fork and County Planning Staff met to continue the public involvement process for the Leiper's Fork Village Special Area Plan.

This was the third meeting in which Staff and the Citizens Advisory Committee sought to obtain the preferences and concerns over the future growth and preservation of the Leiper's Fork Village.

The meeting began with a re-cap of the January 18th meeting, including the exercises that involved the creation of a Vision Statement, Goals & Objectives. Staff also gave a summary of the work that had been done in between the public meetings, which involved the creation of a unified DRAFT Vision Statement, Goals & Objectives that had been created by participants in the January meeting.

Staff then presented the DRAFT Vision Statement, Goals & Objectives and opened the meeting for questions and discussion. The participants indicated a few minor changes to the DRAFT version. The DRAFT Vision Statement, Goals & Objectives reflect those comments and can be seen [here](#).

Staff is currently in the process of drafting the Leiper's Fork Village Special Area Plan, which should be complete in the coming months. An announcement will be made once the draft version of the Plan is complete and the date for the Public Open House, where the Plan will be presented.
